## Thoughts of Thrift

ABRAHAM LINCOLN said: "Economy is one of the finest and highest virtues. It begins with saving."

GEORGE WASHINGTON said: "Economy makes happy homes and sound nations. Instill it deep."

And many others, before and after the days of these great leaders, have exhorted to thrift and deplored extravagance.

A savings account is the emblem of thrift. This institution will welcome yours.

## Locals and Personals

Mr. and Mrs. L. Woodard and daughter spent the week-end at Santa Cruz.

Chas. DeSelle and family motored to Capitola Sunday, for a day on the beach.

We raised the quality, but not the price. Blaine's Steel Cut Coffee is still 50c.

Expert Piano Tuning and repairing guaranteed. Prof. Jos. Halanick. Phone, Campbell 18F12. 47-48

Mrs. A. N. Burch, of Orlando, was a guest of her friend, Mrs. Hattie Baugh, the first of the week.

A. F. Bulmore and family, and Mrs. Robinson, were among the visitors at Capitola beach Sunday.

The R. A. Holmes family returned home from Capitola Monday, after a week of enjoyment at the coast.

Mr. and Mrs. T. L. Mendel and Miss Elizabeth Duncan went to Capitola Sunday to enjoy the rest of the month.

The Ralston Alison family will spend the week-end at the Gazos Creek, with the Walter Stray and C. E. Day families.

The Epworth League will hold a lawn social Friday evening at the D. H. Cramer home, where the Hattie Baugh family has moved for the summer.

Miss Florence Brown Wood, who has been teaching at Palo Alto, was in Campbell Monday, on her way to her mountain home near Skyland.

The A. V. McCarthy, Ralston Alison and S. L. Hayes families spent an enjoyable outing at the McCarthy Mountain Home at the head of the Llagas canyon, Sunday.

Mr. and Mrs. Wiley C. Blood, of St. Louis, Missouri, who were visiting Mr. Blood's sister, Mrs. Winfield Turner, and family for the week, went to Los Angeles Thursday.

R. J. Rodriguez came down from Chico Monday, to be present at the consolidation meeting that evening. He is somewhat improved, but still quite weak. He will go to Sisson for a month of recuperation.

How your Shoes can save your money: You'll have to pay a good price for shoes. You know that you'd better be sure the shoes are good. If they are, it lowers the cost. Solid Leather Shoes give you longer wear. See them at E. E. Sower's. 51-52

William Holden and family, of Providence, R. I., arrived here last week and will make their home among us. At present they are stopping with their friends, I. H. Grim and family, but expect soon to occupy the P. H. Cutting residence, on Hamilton avenue.

The popularity of the Y. M. C. A. Summer Camp is shown by the number of boys signed up. Twenty-one of the boys of the county and twenty-five from San Jose have made their plans for this delightful outing in the redwoods, which begins tomorrow. Secretary Hicks is looking forward to a most enjoyable and helpful time for the boys. More are expected to join the party.

Mrs. Louis Shelley returned last week from a visit at her old home in Alva, Oklahoma. She was accompanied back by her friend, Mrs. G. M. Lisk, who expects to remain in California, visiting friends at various points, until early in September. This is Mrs. Lisk's first visit to California, and she is enjoying it very much, except the few hot days, which are too much like what she came away from.

Dr. Merrill took his father and mother, Mr. and Mrs. Frank Merrill, to Capitola Sunday for a day with his family. His mother remained for the week. On his return, via the "Mountain" Charlie road, he encountered some real pioneer roads, and he says "never again that road." It is now quite certain that the above named "Charlie" was no myth and he has made goats of many autoists. There is where California will make her reputation for clim-it.

The Fire Commissioners have requested that owners of lots clean off the dried grass and weeds, as a fire preventive. It has always been customary to do this in the early summer to lessen the fire risk in our town, as well as to make the vacant lots more presentable in appearance. As the Fourth of July draws near, everyone thinks of looking out for fire prevention. Undoubtedly this reminder will be inducement enough to property owners and residents to accomplish the good work.

## Campbell High School Commencement

The Campbell High School commencement exercises were held Friday evening. The room had been prettily decorated with maroon and gold, the class colors. The stage background was a large green background as a setting for the class motto in large gold letters.

The Rev. G. E. Atkinson pronounced the invocation.

A girls' chorus, accompanied by the orchestra, rendered Handel's Largo in a manner reflecting great credit on the director, Miss Ruth Lloyd, and the performers.

Dr. Raymond Alden, of the English department at Stanford, gave a very interesting address on the value of our past traditions and future prospects. Of these two phases of life, applying the knowledge of the past for the progress of the future, he emphasized the necessity of both. Altho some teachers today lay stress on the past, and others on the future, each excluding the other, the rational growth and advancement of the world requires both. Neither school can succeed alone.

Miss Helen Kalas, the class lark, sang "Spring Tide," by Becker, and after an insistent call responded with "The Little Gray Dove," by Victor Saar. She was accompanied by Miss Bozena Kalas at the piano.

The presentation of diplomas to the graduates was made by Principal I. W. Snow, after a few remarks.

Raymond Hulsman, in a few well chosen words of esteem and appreciation of Mr. Snow and his work, in behalf of the school, presented him with a very pretty study lamp.

The benediction was asked by Rev. Atkinson.

## Clark-Berry

The wedding of Clifford Berry, son of Mr. and Mrs. C. E. Berry, and Miss Mary Clark, of San Jose, was solemnized at the home of the bride's mother, Mrs. Margaret Clark, in San Jose, Sunday afternoon.

The ceremony was read by the Rev. J. F. Wilson, of Reno, before the relatives of the bride and groom. Miss Lois Wilson acted as bridesmaid, and Millard Berry as groomsmen.

The bride wore a pretty gown of white georgette crepe and carried a bouquet of pink sweet peas and maiden-hair fern.

The ceremony room was decorated with Shasta daisies and pink sweet peas, the dining room with daisies and lavender sweet peas. Following a sumptuous wedding dinner, the happy couple departed on an auto honeymoon trip to Los Angeles. They will be at home at 106 North Fifth street, San Jose, after July 5.

The bride and groom are both popular young people of Campbell, Mrs. Berry having made herself beloved by all who knew her while teaching here, and Mr. Berry has made a name for himself as an auto expert.

They were the recipients of many beautiful gifts from their friends, who wish them a long and happy wedded life.

E. B. Baugh will go to Berkeley Saturday on business—that is, his business.

Rev. J. E. Lawyer and family arrived from Reno, Wednesday, to spend some time in our midst while Mr. Lawyer supplies in the Methodist church pulpit. Rev. Lawyer until recently lived in Syracuse, New York.

Mrs. H. W. Higbie, accompanied by Mr. and Mrs. Kelley, of Berkeley, and Rex Burdine, left Wednesday for her summer home on the Feather river. After she has put things in order, Mr. Higbie and Mr. Hale will go up to spend Fourth of July week feeding the fancy trout of that neck of the woods.

Mr. and Mrs. C. B. Miracle arrived home Sunday, after a strenuous motor outing to Yellowstone Park. After traveling on California highways they thoroughly appreciated (?) the trails of Nevada, taking, in one instance, ten hours to go seventeen miles. Two scenic novelties they won't forget were: a house made of bottles and one made of oil cans, in Nevada. They were in the Park too early to see some parts of it, as the roads were not open, August being the best month to see it. They were gone three weeks, and in the auto the most of every day.

## On the Job

In order to fully and more quickly transact business coming from the Eighth District, I have arranged to keep my offices in Washington open during the adjournment of Congress. Every effort will be made to expedite any business that may be entrusted to my office. H. S. Hersman.

## Swat the Fly!

The fly, like the poor, we have always with us. But, when one pauses to think on the subject, it seems remarkable that this so-called house fly—a pest at once so annoying, so disgusting, so menacing as a spreader of disease—should be tolerated so long, for it isn't really necessary.

Flies breed in filth. They are a living monument to the untidiness of the human race. If we would rightly interpret fly language, the maddening hum of those wings, we would hear the fly buzzing, "Clean up! clean up!" That fly remembers what we may be too ignorant to know, or so indifferent as to forget, that his birthplace is about stables and other out-buildings; and under conditions that are, to us, a disgrace.

But while we are waiting to be civilized—if we must wait—we can do the obvious things. We can spread out the tangle-foot; and, if there are no young children about, set out dishes of poison; and most satisfactory of all, swat with one of those new rubber fly swatters. All of these things, persistently used, will help in reducing the number of flies, most mightily.

A SQUARE DEAL for the Round Dollar

## SURPLUS FARM FUNDS

The farmer, like a good business man, must keep his surplus money in such shape that he can use it in his business when funds are required.

Investments outside of your business, even safe ones, are not always easy to turn back into cash. But an Inter-Earning Certificate is an investment on which you can collect your money, with interest, on a specified date. If necessary, you can cash it any time without any loss of principal.

It is a good plan for every farmer to keep some funds earning interest, and thus have ready cash for emergency or opportunity.

## BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

### OKLAHOMA'S PIONEER SCOUTS

There are two pioneer scouts in Choctaw, Okla. One wants to be a wireless expert and the other a breeder of fine horses. Being scouts both will undoubtedly achieve success.

"I think more of the scouts every day," writes a Delaware (Okla.) pioneer scout who will become a veteran in two and one-half years by completing five years of scout service.

A Depew pioneer scout made a three-day hike. He also enjoys fishing trips. An Indian orphan in Hartshorne is a pioneer scout. He is preparing to be an engineer.

Hikes and printing are the hobbies of a pioneer scout in Hollis.

Two out of three pioneer scouts in McAlester expect to remain on the job. One in Okarche is an enthusiastic member of a sheep club. Another says, "Scouting has taught me many things around the farm I never knew before."

"I can't understand what that means. It is terrible. Am about crazy. Am sure Amelia is trying to do something to me."

CHAS. G. BROWN.  
Am so nearly crazy I can't think.

Scouts are good students, but many can beat this pioneer scout in Spiro, Okla. One of the questions on the application blank is, "What studies give you most trouble?" He answered, "Don't have any trouble."

### HIS OWN COOKING SUITS HIM.

Scout F. Hunt of Troop 2, of Portland, Ore., Testing the Rations.

### SCOUTS SLEEP FINE OUTDOORS.

The scouts find camping out so beneficial that many of them want to sleep outdoors the year round.

An authority on this subject declares it is the healthful thing to do. Col. Ernest I. Coulter, general manager of the New York Society for the Prevention of Cruelty to Children, says:

"As to the practice of sleeping out of doors under proper covering and with adequate safeguards against rain, etc., perhaps, have one's ears, nose or other member-frosted, the benefits are incalculable. At no one can question the advisability of this course in many cases."

"More and more people are sleeping out of doors all the time and in all seasons of the year, and I, personally, feel that this practice should be encouraged in every possible way—of course, under proper conditions."

### SCOUTS AIDING CONSERVATION.

With so much interest being taken all over our country in the study of forestry and preservation of our forests, the work now being done by boy scouts along the lines of "tree study" is worthy of special notice.

This work is being pushed by scoutmasters, and the boys are, as usual, coming to the front in acquainting themselves with the nature and growth of the different trees in their various communities, in the same way scouts have always "come to the front" in matters of public welfare.

"How did your wife ever get the carpet man to come on time?"

"She simply floored him with her talk and then nailed him down to a date."

## BODY OF ALASKA MINER IS FOUND IN ESTUARY

Note Found in Hat on Wharf Tells of Worry Over a Woman

Alameda.—The body of Charles G. Brawn, an Alaska miner, was found floating in the estuary at the foot of Oak street Tuesday morning, June 15 by three boys. A piece of barbed wire was wrapped around his waist and his hands were beneath the wire. In his hat, which had been left on the wharf, was a note in which he said a girl named Amelia had refused to marry him. The note, which was addressed "to whom it may concern," follows:

"I am afraid there is something wrong about Amelia and I am so worried I am nearly dead."

"Amelia has bought the house at 2442 Twenty-third avenue, and I have sent money to help pay for it. It is in the name of Charles G. Brawn and Amelia Brawn, his wife. She had agreed to marry me, and now that I am here among her people she refuses and I can't tell them we are not married."

"She has got me to sell the place, and now I am afraid something is wrong with that. I don't know what to do. Have tried to do right. Was at the bank to cash a check on a payment and they acted funny. Amelia is all the time trying to get me to go away and not tell anyone."

"I can't understand what that means. It is terrible. Am about crazy. Am sure Amelia is trying to do something to me."

CHAS. G. BROWN.  
Am so nearly crazy I can't think.

Woman's Letter Found  
A letter found among the man's belongings, written in a woman's hand follows:

"I have to borrow money to get things and what do I get in return from you? You say you will look me out. You have the house. Sell it if you want, as long as I can not buy it from you. You have all it brings, besides you can never gain anything from me by any threats and bluffs. I would pack everything I owned and move them to a storehouse the first time I ever got locked out. I found my breakfast nicely this morning. Am going now to get something to eat after I bum some more money to eat with. You gave me all the money you had, and I can go without eating when it runs out. Some encouragement. Monday you gave me \$22. I paid the bills with it."

### Had Money on Person

Brawn had \$315 in currency and \$4 in silver when his clothes were searched at the morgue. He also had a membership card from the lodge of Moose in Medford, Ore. The house which Brawn refers to in his letter is at 2442, Twenty-third avenue, Oakland. He and a woman who said by the neighbors to be his wife, have made their home there since last February.

Mrs. Mary Amelia Brawn, referred to in the man's letter, is an employee of the H. C. Capwell Company. When informed of Brawn's death she said it was inconceivable that he could have committed suicide.

She had seen him last on Saturday, Mrs. Brawn said, and at that time made an engagement to meet him the following afternoon. She waited for him several hours Sunday afternoon, and when he failed to appear, thought that he had taken a trip to Sacramento, which he had been planning.

The woman said she was Brawn's wife. She said she had posed as a single woman while working in the Capwell store because it was easier than to explain why she had not been living with her husband.

Brawn was inclined to gamble and spend his money recklessly, she said, and it was over that trait of his that they had had their only disagreement, she having refused to live with him until he mended his spendthrift ways. He returned from Alaska in October, she said, and they decided to purchase a home. They bought the house on Twenty-third avenue and the money found on Brawn's body was to have been paid to the bank, on the mortgage she said.

Mrs. Brawn identified the body as that of her husband. She told Deputy Coroner A. P. Smiley that all of Brawn's relatives were living in the east. Mrs. Brawn said:

"We were married in Watsonville several years ago. We then went to Alaska. I returned two years ago and Brawn returned about six months ago. My husband has been suffering from ill-health for a number of months."

The police are investigating the case for a possible murder clew.

### Eggs Is Eggs

"What became of the scheme to stamp the date on eggs before they were put into cold storage," asked the old Foggy. "I haven't seen a stamped egg for five years."

"No," replied the Grouch. "The ink fades six or seven years after it is stamped on an egg."—Cincinnati Enquirer.

## HORRORS OF WAR LINGER WITH US

Ralph E. Garr of Fairfax Kills Lad of 3 in Insane Fit Caused by Shell Shock

San Francisco.—His reason suddenly unhinged as the result of shell shock sustained two years ago in the Argonne Forest, Ralph E. Garr, recently discharged from the United States Army, shot and killed his three-year-old son, Ralph E. Garr Jr., Tuesday afternoon, June 15, in a vegetable patch near Fairfax, Marin county, and then turned the pistol on himself, inflicting a wound that probably will prove fatal.

The tragedy came with stunning force to neighbors of the Garrs, who said that Garr and his wife were ideally happy.

Garr's wife, who is critically ill in the Lane Hospital, this city, following the birth of a daughter the same day was not informed of the tragedy lest the shock prove fatal to her.

Neighbors assumed the care of another son of Garr, a baby boy of 1 year.

The tragedy proved pitiable to those neighbors who saw Garr depart from his little home, laughing and playing with his son along a roadway. Garr was seen to walk up a hill with the boy and after a long tramp, returned home. Garr remained in his home only a few minutes. Neighbors saw him leave again with the boy.

Instead of taking to the road again Garr led his son into a vegetable patch only a few rods from his home. Two small boys said they saw Garr take an Army pistol from his pocket and shoot the boy in the back of the head without uttering a word.

The boy died instantly. Transfixed with terror the witnesses saw Garr place the pistol to his head and pull the trigger. The boys ran screaming to the home of Mrs. James Roland. Mrs. Roland ran to the vegetable patch to find the boy dead and Garr unconscious.

Garr was taken to the San Rafael sanatorium. Physicians said that Garr would die.

Deputy Coroner J. R. Keaton of Marin county, who took charge of the murdered boy's body, was unable to give a reason for the tragedy.

Garr has been a resident of Fairfax for many years. He enlisted in the Regular Army several years ago and saw service on the Mexican border. After the American Army returned from the border, Garr was mustered out of service, but enlisted from Fairfax when America plunged into the war against the

## OREGON VOTERS URGE JOHNSON TO BOLT PARTY

5000 Sign Petition Asking Him to Run as an Independent

Portland.—More than 5000 signatures were secured to a petition circulated in Oregon, June 15 asking United States Senator Hiram Johnson to repudiate the platform adopted by the Republican National convention in Chicago and to announce himself as an independent candidate for the Presidency, according to a telegram sent to Senator Johnson by W. P. Adams, Portland attorney.

The telegram, addressed to Senator Johnson by W. P. Adams, and signed by Adams, says:

"Please be advised that in excess of 5000 signatures of voters of the State of Oregon urgently requesting you to repudiate the Chicago platform and announce yourself as an independent candidate for the Presidency have been secured the first day of circulation."

Adams said that he did not represent any Johnson organization that had heretofore existed, but that his telegram was sent in behalf of many supporters of Senator Johnson in the recent Oregon primary election.

"We heard that similar petitions were being circulated in New York," Adams said, "so we started them here in Portland today. So far the petitions have been circulated only in Portland, but we plan to send them throughout the State."

Adams said that he and the group with which he is connected will continue to circulate the petitions until Senator Johnson declares positively that he will not be a candidate for the Presidency on an independent ticket.

### Infant Mortality Drops

Washington.—Infant mortality rates for 1919 decreased materially as compared with the four previous years, according to statistics compiled by the Census Bureau and made public today. Of the twelve largest cities in the birth registration area, seven showed decreases of from 8.5 to 23.4 per cent, while the highest increase was 3.6 per cent.

### Central powers.

Garr was gassed and shell-shocked during the fierce fighting in the Argonne forest, a fact that he often spoke of to neighbors. Upon his discharge several months ago, Garr opened a barber shop and poolroom. He was prospering, according to neighbors, and his home life was happy until the black blight of tragedy stalked into it Tuesday afternoon.

## MINNESOTA YANKS LYNCH NEGROES

5000 Duluth Citizens Take Three Men From Police and Hang Them

Duluth.—Three negroes were lynched, Tuesday night, June 15, by a mob estimated at 5000 persons, which overpowered the police, took possession of police headquarters and seized the negroes, who were held in connection with an attack on a young white girl.

The negroes were roustabouts with a circus that appeared here and the alleged attack on the seventeen year old white girl took place on the circus grounds.

The negroes hanged were Isaac McGhie, Elmer Jackson and Nate Green, all about 22 years old. They were lynched in the order named at 11:30 p. m., 11:38 p. m. and 11:45 p. m., respectively. All professed their innocence.

First indications the downtown district received of the trouble brewing came at 7 o'clock in the evening when trucks loaded with men dashed up and down the principal streets the men calling "for volunteers to avenge the wrong done the white girl."

There was ready response, and it was estimated that the mob numbered 5000 shortly after 8 o'clock. Then the storming of the jail began.

The Police Station is located just west of the City Hall, between Superior street and Michigan street, with a front entrance on the former street, which is Duluth's main business thoroughfare, and a rear basement entrance on Michigan avenue.

On both streets the mob gathered, surging toward both front and rear entrances simultaneously. Word of its coming had reached the police, and preparations had been made to put up a fight with streams of water from fire hose.

The first concerted attack was made on the rear entrance. Near the building was a pile of bricks used on a construction job, and of this the mob took quick advantage. Bricks were sent flying through the windows and against the rear door, which finally gave in.

This let the mob into the basement, and as it started up the stairs to the first floor strong streams of water washed its members back.

Bricks again were brought into play, and as the battle raged at the rear of the building other members of the mob obtained a section of fire hose, made a connection at a hydrant and started an assault on the front entrance.

Here, too, the police were prepared to fight back the mob with water, and in the water duel that ensued, neither side had a marked advantage until the mob managed to cut the police hose. This caused a momentary retreat by the police and the mob began battering down the front door.

After entrance had been forced from the front, the police offered no further resistance, realizing that attempts to use firearms would turn the disturbance into a riot of even more serious proportions, and probably cause extensive loss of life.

Within the police station the mob faced two heavy steel doors, barring the way to the prisoner's cells. With a large timber the steel doors were battered down after an hour's attack. It took only a few minutes to force open the cages and gain possession of the negro suspects.

On the second floor of the station a mock trial was held. The three negroes declared guilty were taken from the building to Second avenue east and First street, about one and a half blocks from the police station.

McGhie was the first to feel the noose. He cried for mercy, declaring he was innocent. Two Catholic priests called upon the crowd to let the law take its course, but their pleas went unheeded.

One priest, Father F. J. Howard climbed fifteen feet up an electric light pole and again pleaded with the mob to turn the negroes over to courts.

## CHICKENS WITH AND WITHOUT PARADE PARIS

Paris.—The apartment house chicken yard is the latest thing in Paris.

Owing to the high price of eggs, hundreds of Parisians have adopted the scheme of keeping chickens in their apartments. Every morning they take them for an airing and it has become no uncommon sight to see well dressed women promenading the Bois du Boulogne with a hen strutting before her, tied to her wrist with a ribbon or silken leash.

Los Angeles.—Miss Lucy Martin, a copyist employed in the Los Angeles County Hall of Records, was shot and killed at Venice, a beach resort near here, June 15 by an unidentified man, who, turning the weapon upon himself, took his own life.

## WORLD BANKERS TO PEK- IN CHINA

Meeting of European Financiers in New York Is Announced

New York.—The first organization meeting of the consortium for China, consisting of British, French, Japanese and American banking groups, will be held in New York the middle of September, it was announced in a statement given out here by Thomas W. Lamont, of J. P. Morgan & Co. Lamont has just returned from a four months' trip to the Orient as representative of an American banking group acting in conjunction with British and French financiers.

Until the arrival here of the British, French and Japanese banking groups for their first conference with the American financiers, Lamont said he did not expect to see any great activity in the way of loans to China.

"In view of recently quoted expressions on the State Department's knowledge of Far Eastern matters," he continued, "I am bound to say that I found out representatives there fully conversant with Japanese views and possessing a sympathetic understanding of such difficulties as are inherent in the situation. Our Ambassador there, Roland S. Morris, showed extraordinary courage in the negotiations to which I happened to be a party. Certainly the State Department in the last two years has been intelligent and consistent in carrying forward the organization of the new consortium, the final formation of which is a question at least one stage nearer solution."

"As to China, I am aware that many persons characterize it as a great disorganized almost chaotic people. No one can spend even the short time that I was in China without being deeply impressed with the industry and sobriety of that people, with the idealism of many of their leaders, with the growth of public opinion there, with the profound effort that is steadily being made to establish a central government that will function as well as the local governments function."

"The present Government at Peking, as everyone knows, is weak and inefficient. Yet if American people lend to the Chinese the counsel and the aid material and spiritual, which the Chinese are so longing for and which they look to America to give them, we shall, I am confident, witness in the coming years the development of a great and powerful nation there, a nation of 400,000,000 people, whose admiration and warm friendship the United States can, if we bestow proper thought and effort upon the matter, secure for all time to come."

## THIS JUDGE DON'T LIKE TO BE TEASED

Springfield, (Ohio).—Judge Frank W. Geiger of the Common Pleas Court issued a warning that women who apply for divorces in his court must be careful of their dress. The Judge told attorneys that "I don't care if it is as hot as—these women have got to wear more clothes when they come into court. This thing of peek-a-boo waists and see-more skirts has got to stop."

### SUCCESS.

The father of Success is Work; the mother is Ambition; the eldest son is Common Sense. Some of the other boys are Perseverance, Honesty, Thoroughness, Foresight, Enthusiasm and Co-operation. The eldest daughter is Character; some of her sisters are Cheerfulness, Loyalty, Courtesy, Care, Economy and Truth. The baby is Opportunity.

Get acquainted with the "Old Man" and you will be able to get along pretty well with all the rest of the family.

San Francisco.—Eric Pegel of this city, a field draughtsman in the U. S. Forest Service, was drowned while swimming at Modoc, according to word received at the home of the parents Mr. and Mrs. Frank Pegel, 366 Sixth avenue. Pegel was 22 years old, and had been in the forestry service for three years.

A Frenchman, guest at a London hotel, had just been presented with his bill. Though he was most indignant at its amount.

"I wish to see the proprietor!" he exclaimed to the clerk.

In a moment the proprietor entered. The Frenchman was all smiles.

"Ah!" he exclaimed, "I must embrace you!"

"But why should you wish to embrace me, sir?" asked the astonished hotel-keeper. "I do not understand."

"Look at zees bill!"

"Yes, your receipted bill. What of it?"

"What of it? Simply zees, saire, it means zat I shall nevaire, no nevaire, see you again."—London Tit Bits.

## The Difference

"There was quite a difference between the way the returned soldier and the stay at home took my tales of the war, and yet it sounds the same."

"What was the difference?"

"One was fed up on the tales of the war, and the other just ate 'em up."

## ALLEN'S FOOT-EASE DOES IT.

When your shoes pinch or your Corns and Bunions ache, get Allen's Foot-Ease, the antiseptic powder that shakes into shoes and sprinkled in the foot-bath. Gives instant relief to Throat, Achting, Tender Feet. Sample FREE. Address Allen S. Olmsted, Le Roy, N. Y.—Adv.

## He Was Handicapped

A small boy and girl were each striving to outdo the other in an argument, and, in spite of her endeavors, he was winning. Then inspiration came.

"Well, anyway, my father's taller'n yours," she asserted triumphantly.

He dug his toes in the sand. Un-doubtedly his father was a very small man. Suddenly he straightened. A look of triumph flashed from his eyes.

"Humph, my father 'ud be twice as tall as yours, but his s'penders holds him down."—Harper's Magazine.

## Obstacles Overcome

It was a dark night and the car was speeding homeward at a terrible rate.

"What road have you taken, James?" cried Mrs. Blithers, as the car jolted her high in the air.

"The regular boulevard, Mrs. Blithers," returned the chauffeur.

"But I never noticed all these thank-you-marms on the boulevard before," protested Mrs. Blithers.

"Oh," laughed the chauffeur, "those were not thank-you-marms, Mrs. Blithers! They were just a few people who couldn't get out of the way."

Whereupon Mrs. Blithers laughed, too. What a droll mistake it was, to be sure!—Pittsburgh Sun.

## Natural Supposition

Bjones—Well, the day of gold lace is about over.

Smythe—Oh, I don't know. They must be putting gold lace in the shoes they sell nowadays, judging from the price.—Home Sector.

Soap 25c, Ointment 25 and 50c, Talcum 25c.

## TOMATO TRELLIS IS EASY TO CONSTRUCT

Features of One Shown Are Lightness and Durability.

Device May Be Put Together With Any Material at Hand—Fruit Will Hang Low, but Not Enough to Touch the Ground.

The features of this trellis are lightness, durability and easy method of construction. It may be made of any material at hand, although materials of the following dimensions are just about right for a trellis that may be taken up and put away for use for many years.

The pieces that rest on the ground are 1½x3 inches by 4 feet long. The strips nailed on these are 1x2 inches by 6 feet long.

Where the pieces cross one nail is driven and clinched. As shown in the cut, the other pieces are nailed to hold the frame rigid.

The wire running from one side to the other is to hold the frame in position.

When the vines are dead and before bad weather in the fall the trellis may be cleaned and closed up and stored away for further use.

In setting the trellis in position along the row of tomatoes, they should be set five or six feet apart, so that strips, as shown in the cut by dotted lines, may be put on, thus saving one-half the number of heavy pieces.

The strip shown by dotted lines, lying in the fork of the trellis, is to tie the plant to first; then keep off all suckers but two on each side of the plant.

The fruit will hang low in great bunches; being shaded by the foliage and not touching the ground, it will be nice and clean.

A Good Tomato Trellis.

## CONCENTRATES MUST BE FED

Dairy Expert Advises Against Discontinuation of Grain Feed for Cows in Pasture.

L. V. Wilson of University farm, agent in dairying for the United States department of agriculture, advises against the discontinuation of grain feed when the cows are turned out first to pasture. Some grain must still be fed, he says, if a consistent milk flow and the average weight of the cows are to be maintained. Changing from grain feeds to pastures can be overdone, he adds, for the reason that it is impossible for the
